

【 2021 Happiness Group Global Online Conference 】

Application

Since the Happiness Group International Conference in 2018 had more than 10,000 participants from around the world, many churches in Taiwan and overseas have been inspired and responded to the Lord's call to lead souls to Christ through the Happiness Group. Also, many churches have been greatly transformed in health. This has proven that Happiness Group is both an effective evangelistic strategy as well as a powerful church building tool!

However, evangelism is a true spiritual warfare. As such, the challenges faced in operating Happiness Groups and the expertise which it demands are considerable, and only to be expected. We have seen many churches who, although willing to commit to spreading the gospel, had to confront many difficulties in getting started, or failed to achieve results, or became discouraged in continuing Happiness Group due to different factors, including the existing culture in their church.

Yet, we know that spreading the gospel is the Lord's earnest commission to His disciples, and the highest goal to be pursued wholeheartedly for all their lives. Despite the challenges, we can rely on the power of the Holy Spirit as we press on to gain experience, adapt and renew, and achieve breakthroughs - until we see many souls turn to Jesus and proclaim Him as Lord!

For the past two years, due to the ups and downs of the pandemic, this conference originally planned for September this year could not be carried out as scheduled, so we decided to make it online and make it globally. The content this year contains first-hand revival messages, looking forward to once again awakening the heavenly value of the disciples, igniting the faith and enthusiasm of evangelism.

In addition, we have also collected the reasons why many churches have been frustrated in Happiness Group in the past few years, and compiled them into a practical training, which could turn the frustration into success. On the basis of the original strategy, we have explored the crucial points and details of the success or failure of the happiness group, to help our fellow workers grasp the know-how more effectively.

Meanwhile, in response to the demand of the pandemic, we have added the online Happiness Group strategies and practical sharing in the conference.

By this online conference, we believe it will not only help new fellow workers to quickly understand and hang of it, but also help experienced workers further adjust and revision. We sincerely await your participation in this conference.

【For those who cannot participate the whole process in conference, make-up classes will be announced after the conferences】

Senior Pastor of Blessed & Blessing Church

楊錫儒
July 29, 2021
